36" high mail sorter
Available in 25 different colors as well as 2-tone

Classroom retrofitting

PCS5 Large Rectangular Grommet is just the right size for larger desks or conference tables. Perhaps best of all, it has a very low profile, just 1/8" above work surface. Fastens securely from underneath. Opening the lid reveals angled power and data; configured with two electrical outlets rated 15A/125VAC and one dual Category 5e data module

PCS36 Medium Dual Flip-Up Grommet has electrical outlets and data ports on both sides. And also features a light touch lid to open it up. It allows access to electrical and data modules from both sides, so it is perfect for conference room tables, training tables and libraries, or any other place a group meets. It is available in 3 sizes, so will fit most any size table and group.

PCS6 Power Pylon sits subtly, almost unnoticed, on the desktop until needed. Then, just a tug of the handle and Power Pylon slides up and locks in place, ready to use. Standard configuration is one electrical outlet rated 15A/120VAC and one Category 5e data insert.

Classroom retrofitting

DWR2/WL-90 - Keyboard/Storage Drawer w/ Locking Lid
 Perfect for computer users who want a clutter-free desk! DWR2/WL-90 has a full-sized keyboard tray and flexible polyurethane palm rest, while still retaining the large storage bin at the rear. The drawer sides are tapered for easy transition between keyboard and retractable mouse pad. Mouse tray is interchangeable to left or right side. Mouse stores underneath in its own "mouse trap." Comes standard with file rods for Letter, Legal, and A4 files. This version comes with locking lid for bin storage and set of two keys.

DWR3-90 - Laptop Drawer
 This is the perfect place to keep your laptop secure, yet handy for instant access. Just slip it in then lock it up when you go home! The best part: tray is large enough to fit just about any laptop. It features a flexible polyurethane palm rest for maximum user comfort. 6" deep rear bin is perfectly sized for compact discs and for other important items you wish to keep close at hand.

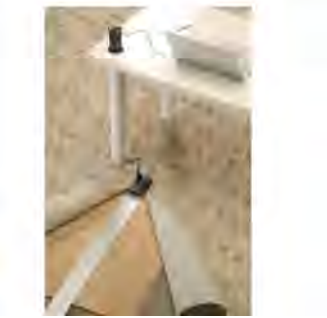

KP7/M2-90 - Adjustable Keyboard Platform
 Adjustable keyboard tray combining comfort with a sleek and stylish look. Ultra thin with soft, rounded edges. A thick removable gel pad lines the front edge of the tray for optimal wrist support. Includes a round, swiveling mouse platform that can be mounted on the left or right side. The front of the mouse platform features a handy bumper railing with a nifty shape that prevents the mouse from sliding over the edge.

CPU1A - Universal CPU Holder
 An adjustable, sturdy holder for a computer that suspends it under the desk, keeps it away from dirt, and leaves more room on the desktop. Adjustable (inside dimensions) from 5" to 9 1/2" one way, 14" to 24" the other. CPU1A screws firmly to the desk bottom or side. May also be mounted horizontally

FSA4 Flat Screen Monitor Arm for Taskbar - Clamp-On Mount
 Offers a base and mount that matches the TBR toolbar series, so that you have a number of options to integrate the design of your workstation. Clamps to desk or work surface up to 2" thick. Swivel arm permits rotation of 360 degrees and 90 degrees up and down. Extends up to 16".

PTRC2 Individual Power Track 4 ft length
 Bringing power and data to your workstation has never been easier. No more tripping hazards or unsightly wires – blends seamlessly with your own carpet and channels cabling underneath. Low profile ramps meet ADA regulations for wheelchair accessibility

Cafeteria tables

- Anti-tip design
- Single hand downlock release
- Steel center channel for added strength
- Automatic storage lock system
- Available in range of colors and sizes

- No pinch gaps between halves
- Automatic lockdown system
- Contoured vinyl edge
- Stainless cover plates in critical areas
- Box steel construction
- 100's of laminate colors to choose from

- Recessed leg design
- Frame mounted downlock
- Swivel casters
- 1" x 2" rectangular steel T-Legs
- Choice of powder coated or chrome legs
